Holland, meet the Hills

The brand first, then the online shop, then the doors of Hillcrest and Hilton, followed by six months of steady, premium content. Every post below is written in full, with the brand card that goes out with it, on the day and time the Studio gives it. Nothing goes out until HQ approves it there.

The launch, in order

Tue 13 Oct

The brand goes live

Two weeks on social: who we are, the windmill, the hills, Learn, Rewards, the Windmill Tee. First access at herbalholland.com.

Tue 27 Oct

The online shop opens

shop.herbalholland.com for adults 18+ anywhere in South Africa. The one promised message to the first-access list, and the Founding Members list opens.

From 29 Oct

The stores are revealed

Hillcrest, then Hilton a week later: the Good Neighbour Promise, the team, the invitations, The Windmill No. 2.

Tue 1 Dec

The doors open

Both stores at 09:00. Members' Evenings on Thursday 3 Dec, Open Day on Saturday 5 Dec.

Sun 6 Dec

Founding list closes

Then the Founding Members' Drop on Thu 10 Dec, early access by tier.

Dec to Apr

Always on

Festive, Read the label, Gezellig evenings, Bring a friend, 100 days in the hills, Easter, and a product launch on the planned Tuesdays.

The campaigns

Brand launch: Holland, meet the Hills

Day T: Our accounts go live

Our first two weeks on social, before the shop opens: who we are, the windmill, the hills, Learn, Rewards and the Windmill Tee, each post pointing to first access at herbalholland.com.

Online shop launch

Day T: The shop opens

The online shop opens for adults 18+ anywhere in South Africa: a Saturday teaser, opening day with the one promised message to the first-access list, how joining and delivery work, Founding Members, The Windmill No. 1 and the merch.

Store opening (the 2026 launch)

Day T: Doors open, 09:00

One store's opening, from the reveal five weeks out to the thank-you: the Good Neighbour Promise, the neighbourhood, the team, the invitations, the countdown, opening day on every channel, the Members' Evening and Open Day, with stores that open on the same day sharing the big moments and taking turns, a week apart, with their own. Written for the December 2026 openings: it carries The Windmill, No. 2 and points people to the Founding Members list, so a later opening needs those lines changed.

Founding Members

Day T: The list closes at midnight

The last four weeks of the Founding Members list: how it works, moving up with your link, what Founding Members get, bringing a friend, the last call and the numbers, with no live counts (members see their own place in the Rewards app).

Hiring

Day T: Applications close

Member advisors and store managers: the call and the last day to apply on social and LinkedIn, the two roles on LinkedIn, one post for the WhatsApp Channel, and always that we never charge to apply.

Merch drop

Day T: The drop opens, 10:00

A merch drop from Thursday 10:00 to Saturday night, online and in store: a teaser, drop day with an email to members who chose merch and a push, and the last day; members in our higher tiers get in early.

New online: a product launch

Day T: The product goes online

A new product in the online shop, for the members who chose its interest: an email at 16:00 built only from its facts (what it is, what's in it, its lab page, delivery or collection), a push at 18:30, and next morning a Learn carousel on its category that names no product and sells nothing.

The gift email, November 2026

Day T: Thursday 26 November

One email in Black Friday week instead of a sale: the merch as gifts, delivered anywhere in South Africa, and collected in store from opening day.

Festive season 2026

Day T: Monday 14 December

Three quiet weeks from 14 December to 3 January: festive hours (on each store's page, never in the copy), a stop in Hilton and Hillcrest on the N3, gifting the windmill, a thank-you for our first weeks, happy holidays, plan your ride home and a safe trip home, with two Learn carousels. Nothing on public holidays.

January 2027: Know your Holland

Day T: Monday 4 January

Know your Holland: Read the label every Tuesday, our neighbours, team and Open Day questions on Wednesdays, store life and the first Gezellig evenings (Hillcrest Thursday 21, Hilton Friday 22 January) on Thursdays, the makers and the merch on Saturdays; The Windmill, No. 3, and a plain guide to instant savings and My Deals for the long month.

February 2027: Gezellig, and Bring a friend

Day T: Monday 1 February

February's posts: gezellig, the Dutch art of feeling at home, and Bring a friend month (you and a friend both get 50 points on their first purchase). The Windmill No. 4, Gezellig evenings in Hillcrest (18 February) and Hilton (19 February), CBD and Schedule 0 in five facts, the team's favourite views, and the tote and the cap, made for two. Four feed posts a week, LinkedIn on Wednesdays, the WhatsApp Channel on Thursdays.

March 2027: 100 days in the hills

Day T: Monday 1 March

March to The Windmill No. 6 on Tuesday 6 April: 100 days in the hills on Wednesday 10 March, a thank-you week (8–13 March) with this month's Gezellig evenings in Hillcrest (11 March) and Hilton (12 March), the law in 2027, Easter hours, and slow autumn with the Winter Drop coming in May. Nothing on Human Rights Day, Good Friday or Family Day.

The rules every post keeps

Premium and informative. The news first, then "Adults 18+". No exclamation marks, emoji, hype or discounts. No pharmacy angle, no franchise recruitment, no medical claims.

The brand feed. One post a day, five a week (seven in the two opening weeks). The WhatsApp Channel gets one hand-made post a week.

By channel. Nothing about products for sale on social, WhatsApp or Google. WhatsApp and Google posts are made by hand. Product launches go only to members who chose that interest.

Per member. At most one email a day, two a week and four a month; two pushes a week; two texts a month. Members' messages stay inside the legal send times and never go on Sundays or public holidays.

The times (SAST). Feed at 07:00 or 19:00, Saturdays 09:00. LinkedIn Wednesdays 12:00. WhatsApp Thursdays 12:30. Email Tuesdays 16:00. Push 18:30. SMS 10:00.

Placeholders. Words in [brackets] are filled in by the Studio from HQ's records: a store's address and hours, or a product's name and facts.

Every post, week by week

Welkom, and sawubona. We're Herbal Holland.

We're a members-only wellness retailer for adults 18+, with Dutch heritage and our feet in African soil. We like a warm welcome, plain answers and knowing exactly what's on the shelf, so every batch we sell is lab-tested, with a public lab page you can check for yourself. Our online shop opens soon, and our stores in Hillcrest and Hilton follow.

Why we're building Herbal Holland the way we are.

Standards you can check. Every batch we sell is lab-tested, and every batch has a public lab page: scan the QR on the pack to see what the lab measured and what it screened for.

Members only. Everyone who shops with us is a member of Herbal Holland Rewards, free to join for adults 18+. It's how we keep what we do for adults only: we check your age when you join, and your ID at the door and the till.

Plain English. No medical claims and no hype. Learn, our library of short reads on lab results, labels and the law as it stands, says what we know and how we know it.

Our online shop opens soon, and our stores in Hillcrest and Hilton, in KwaZulu-Natal, follow. Get first access at herbalholland.com. Adults 18+. #HerbalHolland

Why a windmill? It's two things at once: a Dutch windmill and a four-petal flower. The ring is open at the bottom, where the tower stands. We drew it from our first store-window poster.

Shoot: Reel, 15–25 seconds: the windmill mark drawn stroke by stroke in Sunset orange on warm black: the four petals, then the tower, then the ring, left open at the bottom. No people, no products; end on 'Holland, meet the Hills.'

Read a lab result in a minute.

Every batch we sell has a public lab page: scan the QR on the pack for the certificate behind that exact batch. Look for three things. The potency. The terpene list, which is the aroma profile. And the safety panels every batch should pass: microbes, pesticides, heavy metals and mycotoxins. PASS means the lab measured each one below its limit.

The Windmill, No. 1: the story so far

Hi {{firstName}},

Welkom to The Windmill, our newsletter for members of Herbal Holland Rewards. This is the first one.

The story so far. Our online shop opened a week ago, for adults 18+ anywhere in South Africa, and everyone who has joined since has a place on the Founding Members list. Siyabonga for being here early.

Your Founding place. The first 2,026 places get a numbered Founding Member card in the Rewards app and at least Sprout tier for 14 months: Sprout-tier savings on eligible items and early access to selected drops, and an invitation to a Founding Members' Evening every December. Your place is in the app. To move up, share your link: every friend who joins with it moves you up 250 places, and you both get 50 points on their first purchase.

Three Learn reads. How to read a lab result: potency, terpenes and the safety panels every batch should pass. What Schedule 0 means on a label. And how Rewards works, from Seed to Harvest. Each takes a few minutes, in plain English, at shop.herbalholland.com/learn.

Wear the windmill. The Windmill Tee, the Sunset Hoodie, the Heritage Crewneck, the Windmill Cap, the Sunset Bucket Hat, the Windmill Beanie and the Windmill Tote are all in stock: delivered anywhere in South Africa, or collected in store once our stores open.

Two new stores in the hills. Hillcrest, in the Upper Highway, and Hilton, in the KZN Midlands, open their doors in December. Invitations to the opening week follow soon.

See you soon,
The Herbal Holland team

Gift the windmill this festive season

Hi {{firstName}},

It's the week of big sales. We don't run one. Instead, here's a short guide to our merch, for anyone on your list who'd wear the windmill.

For summer days: the Windmill Tee, heavyweight black cotton in a men's and a ladies' fit, with the windmill embroidered on the chest and our store-window poster printed across the back; the Windmill Cap in washed cotton; and the Sunset Bucket Hat in cotton twill, each with the windmill embroidered in Sunset orange.

For the evenings: the Sunset Hoodie, heavyweight Sunset-orange fleece in a men's and a ladies' fit, with our lock-up embroidered on the chest and a sunset over the hills across the back; the Heritage Crewneck, heavyweight black fleece with “Dutch heritage. African soil.” embroidered across the chest; and the Windmill Beanie, with the windmill on its cuff.

And for everything else: the Windmill Tote, heavy black cotton canvas with our lock-up printed in Sunset orange.

It's all in stock and delivered anywhere in South Africa, with tracking by SMS. We hand every parcel only to the member named on the order, who may be asked for ID, so have it delivered to you and do the wrapping yourself. Or collect it at your store, and from Tuesday 1 December at our new stores in Hillcrest and Hilton too.

It's all at shop.herbalholland.com.

Happy gifting,
The Herbal Holland team

The Windmill, No. 3: Know your Holland

Hi {{firstName}},

Welkom to 2027, and to The Windmill, our newsletter for Herbal Holland Rewards members. This month's theme is Know your Holland: our labels, our people and our evenings.

December, in short. On Tuesday 1 December our doors opened in Hillcrest and Hilton. Opening week brought our Members' Evening and Open Day, with a coffee cart, local makers' tables and Learn sessions with the team on the hour. The Founding Members list closed on Sunday 6 December, and every Founding Member's numbered card is in the Rewards app. Siyabonga for such a warm welcome.

Read the label. Every Tuesday this month, a four-part Learn series on reading a label, line by line: what it is, the numbers, what's in it, and the batch and its lab page. Each part is on our social pages, and the whole read is in Learn at shop.herbalholland.com.

Gezellig evenings. Gezellig is Dutch for warm, sociable, at home, and from this month each store hosts a Gezellig evening every month: Hillcrest on the third Thursday and Hilton the evening after, 18:00–20:00. The first are on Thursday 21 January in Hillcrest and Friday 22 January in Hilton. They're for members: RSVP in the Rewards app, and bring your ID.

Your Rewards in the long month. January is a long month, so here's how your membership works for you. Instant member savings come off eligible items automatically, in store and online. You earn points on every rand. And every Monday, My Deals brings you a personal offer, automatically, with nothing to clip or remember.

How instant savings and My Deals work

Hi {{firstName}},

January is a long month, so here's a plain-English guide to what your Herbal Holland Rewards membership does each time you shop with us, in store or online.

Instant member savings. Eligible items carry member savings that come off automatically: give your Rewards number at the till, or sign in when you check out online. There's nothing to clip or remember.

My Deals. Every Monday, My Deals brings you one personal offer, chosen for you, automatically.

Points and tiers. You earn points on every rand. As you shop, you climb from Seed to Sprout, Bloom and Harvest, and each tier has its own member savings.

Your card lives in the Rewards app: add it to your home screen and it's with you at the till. For the full picture, How instant savings and points work is in Learn.

See you soon,

Read a lab result in a minute.

Scan the QR on the pack: it opens the lab page for that exact batch. Check the batch code matches your label. Then read three things: the potency, as the lab measured it; the terpene list, the batch's aroma profile; and the safety tests, each marked PASS, FAIL or Not applicable.

Every batch should pass four: microbes, pesticides, heavy metals and mycotoxins, plus solvents for extracts. Every one of our batches has a public lab page.

The law in 2027: where things stand. A plain-English overview, not legal advice.

1. Adults may use, possess and grow cannabis in private. The Constitutional Court decriminalised it in 2018, and Parliament has since passed the Cannabis for Private Purposes Act.
2. Using cannabis in public, and supplying it to others, are not decriminalised.
3. CBD has its own rules: within Schedule 0's limits (at most 600 mg a pack, 20 mg a day, and modest claims), it needs no prescription.
4. Everything we do is for adults 18+, with ID at the door and the till.
5. The law keeps moving. When it does, we update Learn, with the date.

The Windmill, No. 5: 100 days in the hills

Hi {{firstName}},

On Wednesday 10 March, our stores in Hillcrest and Hilton are 100 days old. We opened the doors on 1 December, and we'd like to say thank you properly.

The thank-you week. From Monday 8 to Saturday 13 March we're saying siyabonga, and this month's Gezellig evenings come a week early to be part of it: Herbal Holland Hillcrest on Thursday 11 March and Herbal Holland Hilton on Friday 12 March, 18:00–20:00. RSVP in the Rewards app, and bring your ID.

What you ask us. A few questions come up at the counter again and again: why we check ID every time, whether you need to be a member, and what the QR on the pack shows. We've answered them, and more, in a new Learn read, 100 days of your questions, from Tuesday 9 March.

Learn picks. The law in 2027: where things stand. A plain-English overview of what's allowed and what isn't, dated so you know when it was written. It's general information, not legal advice.

Siyabonga for the first 100 days,

How Rewards tiers work, simply.

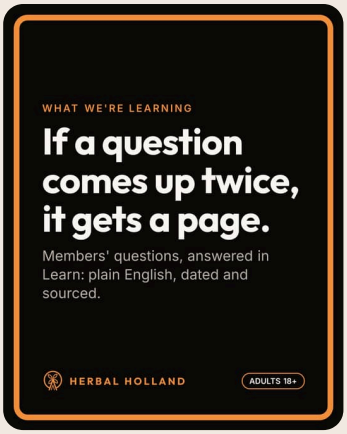

There are four: Seed, Sprout, Bloom and Harvest. You start at Seed when you join, free, for adults 18+ (Founding Members hold at least Sprout for their first 14 months). Your tier follows what you've spent over the last 12 months, and it moves up the moment you qualify. Each tier keeps everything from the tiers below it, with bigger instant member savings on eligible items as you climb. And at every tier, you earn points on every rand.

Released, on hold, recalled: what a batch's status means.

Every lab page shows its batch's status at the top. Released means it passed its tests and can go out to members. On hold means it's paused, for example while a result is re-tested. Recalled means it's been called back, and the page says so in plain language.

Our tills block anything on hold or recalled, automatically. Learn: link in bio. Adults 18+.

Shoot: A 5-slide carousel: the status at the top of a demo lab page, then one status a slide, then a slide on the tills. No products in shot.

Terpenes, without the hype.

Terpenes are aroma compounds made by many plants: they're why citrus peel, pine needles, lavender and black pepper smell the way they do. On a lab page, the terpene list shows the main ones measured in that batch, as a percentage by weight: limonene (citrusy), pinene (piney), myrcene (earthy), caryophyllene (peppery) and others.

Two batches of the same product can differ a little: it's a natural product, measured honestly. And the hype? Claims that a terpene will make you feel a particular way go further than the evidence. We stick to what's measured.

Learn: link in bio. Adults 18+.

Shoot: A 5-slide carousel: what terpenes are; where else you smell them (citrus peel, pine, lavender and black pepper on a dark surface); the terpene list on a demo lab page; why batches differ; what the evidence doesn't say. No products in shot.

The Windmill, No. 6: slow autumn in the Midlands

Hi {{firstName}},

Autumn has come to the hills. The mornings are cooler, the mist sits longer in the Midlands valleys, and the light goes gold early. It's a season for slowing down, and we're taking it slowly too.

The Winter Drop is coming in May. We'll share more before it opens. To hear when it opens for you, tap Notify me on the drops page in the Rewards app.

Gezellig evenings. April's are at Herbal Holland Hillcrest on Thursday 15 April and Herbal Holland Hilton on Friday 16 April, 18:00–20:00. RSVP in the Rewards app, and bring your ID.

Learn picks. Terpenes, without the hype: what they are, what the terpene list on a lab page shows, and what the evidence doesn't say.

See you in the hills,
The Herbal Holland team
