Grinder, trays, papers and the rest

One rule across the range: the windmill and the name in Sunset on black, or black on Sunset, and nothing else. No leaves, no slogans. The quality shows in the finish: engraved metal, heavy ceramic, unbleached papers.

Files. Every design is in `public/merch/print/accessories` as SVG (vector), PDF and a 300 dpi PNG, drawn at actual size with the type embedded. `scripts/accessory-art.tsx` regenerates them.

Papers and tips. They're tobacco-related, so they carry the tobacco-related flag in the catalogue. Have counsel confirm any wording the packaging needs before printing.

Colour match. Match prints, pad prints and decals to a physical Sunset swatch. Engraving has no ink: it shows the metal.
