

ACCESSORIES RANGE · IN STORE AND ONLINE

The orange paper. Only here.

One range for every store and the online shop. Black and Sunset, the Mark and the name, nothing else. The orange papers, cones and tips are the signature: once you've seen an orange roll, you know where it came from.

Consumables first

Papers, cones and tips are bought every week. Small, cheap to post and the easiest add-on to any online order.

Gifts second

Grinders, trays, the jar and the starter kit carry the brand into homes and photos. Strong in December.

One look

Black and Sunset only, so the range reads as one shelf in store and one row online.

The orange paper: what to ask the supplier for

The differentiator only works if it is safe and certified. Brief every paper supplier with this, and don't launch the orange papers without the paperwork.

- **Paper:** ultra-thin rice or hemp blend, about 14 g/m², natural acacia (gum arabic) gum, king size slim (110 × 44 mm) and 1¼.
- **Colour:** a food-grade, plant-based colourant (for example paprika extract or beta-carotene), matched as close to Sunset #F5913C as the paper allows. No azo dyes, no metallic inks, no chlorine bleaching.
- **Proof before we buy:** a lab certificate for heavy metals, a burn and combustion test, and the colourant's food-grade certificate. Keep them on file (HQ → Compliance) for every batch.
- **Same paper for cones and tips:** cones pre-rolled from the same certified paper; tips in Sunset card.
- **If a tint can't be certified:** fall back to unbleached paper in the orange booklet with an orange-printed watermark line on the gum edge. Same look on the shelf, no tint in the leaf.
- **What we never say:** no health words. Not "safer", "cleaner", "natural smoke" or anything like it. Name, size, leaves, colour. That's all.

Selling it

- **Everywhere at once:** the same range and photos in every store and the online shop.
- **Online:** list the papers, cones and tips as add-ons at checkout; they fit any parcel and push orders over the free-delivery line.
- **At the till:** papers, cones, tips and lighters at the counter; grinders, trays, jars and the kit on the wall.
- **Who can buy:** adults 18+, members only, like everything else we sell. Check the current tobacco-control rules on displaying and advertising smoking accessories before launch.
- **Files:** every design is in `public/merch/print/accessories` as SVG, 300 dpi PNG and actual-size PDF.
